

Rayman Raving Rabbids 2

Rayman 2 is a series of mini games that require basic movements and control of the remotes in order to successfully complete the games. For this reason it offers a good selection of activities for those with minimal or limited movements. The game includes some bizarre rabbit style characters wearing a variety of equally bizarre outfits, but if you can get past the weirdness of the plot the games are a lot of fun, easy to use and easy to achieve.

The games all give a score at the end of them and so progress can be recorded (in a fashion). An example of this is in a game called Timber - the idea is to perform a sawing action with the WiiMote - the player who saws through their tree branch first is the winner with the score being calculated by their speed. This is one example of a good handful of games of similar principle but all requiring different movements.

Official information about Rayman Raving Rabbids 2 can be found by clicking [here](#)

You will also find indications of the level of activity or function required to access the game successfully. Easily accessible games are given 5 stars, more difficult games less.

Multiplayer Yes - Between 1 and 4 players

Wii Remote & Nunchuk + buttons

GAME	Type	EASE (out of 5stars)	Additional Info
American Football	USA	★★★★☆	Uses nunchuk stick
Ice on Ice	Europe	★★★★☆	Uses nunchuk stick

Great game offering a variety of mini game activities, some very easy, some more complex. The simplicity of many of the games found within Rayman 2 make it easy to dip into and use with a variety of people who either have limited control of movement or who are looking to improve motor control.
